Concerned About Development Learning Collaborative:

Better results for you and the children you serve.

"I've learned there is a right way to screen and a wrong way to screen. This is the right way."

*Judith Romano, MD
Wheeling Pediatrics*

"The collaborative has helped us implement change by encouraging a team approach and getting all the office on the same page. It really helps a practice refine a screening strategy and a more systematic approach to the treatment of delayed children and their families."

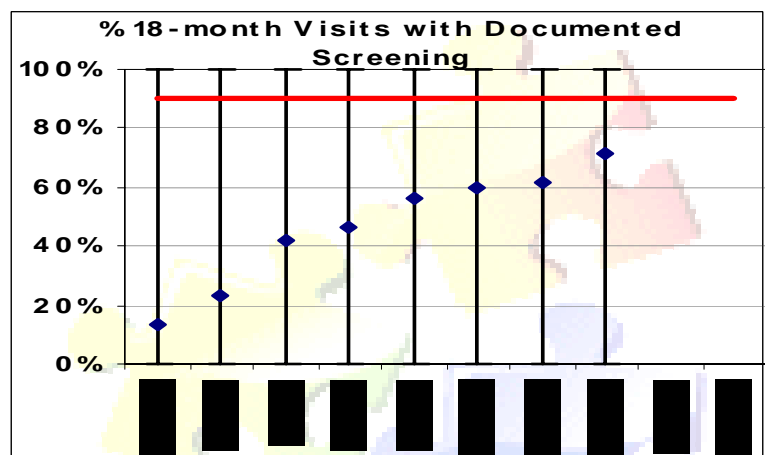

Pat Hein, MD

"We feel we are not only doing a better job of identifying developmental problems, but that the quality of our well child care has been enhanced. It has been a very worth-while experience."

Anonymous

Why Screen?

- Delayed development is common!
- It's best practice!
- Everyone is starting to do it!
- Learn more about the kids!
- Streamline visits to address parent's concerns!
- Early intervention makes a difference!
- Enhance your bottom line!

Results from Ohio practices who participated in the Pilot Collaborative.
