PROFESSIONAL PERSPECTIVES!

"I've learned there is a right way to screen and a wrong way to screen. This is the right way."

*Judith Romano, MD
Wheeling Pediatrics*

"We have found the participation to be very beneficial to our programs. The collaborative relationship between HMG partners has been strengthened. Most importantly, for young children and their families, we have significantly decreased the time from initial concerns to services."

*Rob Spence, Director Children's Services,
Wood County Board of Developmental Disabilities and
Joanne Hayward, Supervisor of Community Nursing
HMG Project Director, Wood County Board of Health*

"The participation helped staff become more knowledgeable about autism in order to look for signs in children enrolled in our program, refer our families for appropriate treatment and better understand the children we work and the issues they face."

*Pat Green
Belmont County Help Me Grow*

PARENTS AGREE!

"I feel that everything that needed discussed was. Thank you all!!"

"I find this to be quite hopeful and helpful to me."

"Everything was extremely satisfactory as far as personnel, time and location. We're very thankful."
